That's why instructors have chosen Mastering for over 15 years, touching the lives of over 20 million students. You pose a variety of questions that help students recall ideas, apply concepts, and develop critical-thinking skills. Then, you can adjust your teaching accordingly, and even facilitate peer-to-peer learning, helping students stay motivated and engaged. Empower each learner: Organic Chemistry Dynamic Study Modules focus on general chemistry remediation, acid-base chemistry, functional groups, nomenclature, and key mechanisms. Click the Browse by Product button, and then select either the consumer or business tab. The problems give students a place to learn through practice and to earn credit based upon completion rather than correct answers. NEW - Item Library is curated, reclassified, and organized into four tiers to help instructors to navigate resources in Mastering Chemistry. Tier 1 includes practice questions with credit for completion. Hallmark features of Organic Chemistry Provide a strong foundation for problem solving Problem-Solving Strategies help students break down the multitude of complex problems into simpler pieces and establish thoughtful methods for approaching complicated problems. Then, a second video walks the students through a representative reaction of that key mechanism. Students, ask your instructor for the correct package ISBN and Course ID.
